crucial definition

Done = The feature is finished developed, vetted, tested, and ready to go to hands of users as soon as Cheryl & Steve deploy it.

choices for updating feature status

- Commit = a pledge to get the feature to the *definition of done* (be sure to consult with any coworkers working on this project too)
- Approved = doing work on the feature, but not getting it to the definition of done
- New = zero chance of doing work on it this sprint. move to next
